PREMIUM WIRE AND CABLE

SUPERIOR QUALITY

Every cable we manufacture must meet rigorous quality standards. This results in products with unparalleled performance ready for your most critical operating environment.

CABLE EXPERTS

We have over 950 UL certifications and also hold Cradle to Cradle certification for our line of environmentally friendly wire. With an expert engineering team to help, your custom cable solution has never been easier.

SERVICE EXCELLENCE

Whether you are our smallest or largest customer, you will feel the same commitment to the highest level of quality service. We strive to go above and beyond the expected.

CUSTOMIZABLE FEATURES

CONDUCTORS	
4 AWG to 32 AWG to ASTM Standards	Bare Copper
Waterblocked	Tinned Copper
Copper Clad Steel	Oxygen-Free Copper
INSULATIONS	
Polyvinylchloride (PVC)	Semi-Rigid Polyvinylchloride (SR-PVC)
Polyurethane (PU)	Thermoplastic Elastomer (TPE)
Thermoplastic Polyester Elastomer (TPEE)	Thermoplastic Vulcanizate (TPV)
Polyethylene, Linear Low-Density (LLDPE)	Polyethylene, High Density (HDPE)
Polypropylene (PP)	Santoprene®
Hytrell ©	Flexible Noryl ©
Modified Polyphenylene (mPPE)	Modifield Polyphenylene, Polyolefin (mPPE-PE)
Cross Linked Polyethylene (XLPE)	Nylon
Foamed, Cellular PE	ETFE – Tefzel ©
Semi-Conductive PVC	Thermoplastic Polyester (TPES)
JACKET MATERIALS	
Alcryn © Melt Processable Rubber (MPR)	Flexible Noryl ©
Halogen-Free PE	Hytrell ©
Modified Polyphenylene (mPPE)	Modifield Polyphenylene, Polyolefin (mPPE-PE)
Polyethylene, Linear Low-Density (LLDPE)	Polyethylene, High Density (HDPE)
Polypropylene (PP)	Polyurethane (PU)
Polyvinylchloride (PVC)	Santoprene ©
Thermoplastic Elastomer (TPE)	Thermoplastic Polyester Elastomer (TPEE)
Thermoplastic Vulcanizate (TPV)	Thermoplastic Polyester (TPES)
